

Brondell®

Cypress Three-Stage Countertop Water Filtration System

Model: H630

Features

Composite Plus Filter reduces sand, rust, and fine particulates

Patented Nanotrap Filter reduces waterborne microorganisms, including many bacteria and viruses

Carbon Block Filter reduces particulates, bad tastes and odors, chlorine, microplastics, VOCs, and more

Tested and certified under NSF/ANSI standards 42, 53, and 372

Wastewater-free design

Push-button control provides continuous filtered water

Countertop faucet diverter installation; attaches easily to most kitchen faucets

Alternative under sink T-Valve installation (additional parts required)

Holds WQA Gold Seal Certification

1-year limited warranty

Technical Specifications

Installation	Faucet Adapter (provided) or Under Sink Connection (additional parts required; sold separately)
Filters & Lifespan	Composite Plus Filter (HF-31): 6 months Nanotrap Filter (HF-32): 12 months Carbon Block Filter (HF-33): 6 months
Dimensions	3.75" (W) x 10.5" (H) x 13.5" (D)
Net Weight	4.8 lbs
Min/Max Operating Pressure	20 psi-120 psi
Min/Max Water Feed Temp	40° F-100° F
Rated Service Flow	0.5 gallons per minute (gpm)

The H630 water filtration system has been tested and certified by the Water Quality Association to NSF/ANSI 42, 53, and 401 for the reduction of substances outlined in the performance data sheet, as verified and substantiated by test data. See performance data sheet for individual contaminants and reduction performance. NSF/ANSI/CAN 372 certified for lead free compliance.

NOTE: The specifications listed above are subject to change without prior notice for reasons of improving the product performance.
